Product overview

Thank you for choosing the **Einova 65W Chromebook Power Adapter!** Fast charge your Chromebook and all your other devices. Designed for Google Chromebook, the included charging accessories (two tips USB-C to 4.0 x 1.7mm and USB-C to 3.0 x 1.1mm and a USB-C cable) mean versatile charging options for both USB-C and barrel power port Chromebook models by manufacturers including Acer, Asus, Dell, HP, Lenovo, and Samsung.

The **65W Chromebook Power Adapter** is universally compatible and safe for all USB-C devices requiring up to 65W of power. Use it as a:

- Laptop charger for your Chromebook, PC, MacBook, or MacBook Air.
- Smartphone charger for iPhone, Android, Samsung, and Microsoft (to name a few).
- Tablet charger for Apple iPad, Microsoft, Samsung Galaxy Tab, Lenovo and more.
- Charger for portable devices like headphones, speakers, cameras, and drones and many more.

The power adapter features **cutting-edge GaN charging technology**, so your gear can keep up with you. The intelligent Power Delivery standard ensures that your devices large and small always receive the optimal amount of power.

The modest and compact size makes the 65W Chromebook Power Adapter easy to stash, and the premium 6ft USB-C to USB-C cable is fully removable for easy portability.

What makes the 65W Chromebook Power Adapter unique?

1

Designed for Chromebook laptops:

Fast and portable charging for most Chromebook models by manufacturers including Acer, Asus, Dell, HP, Lenovo, and Samsung.

2

Broad Chromebook compatibility:

The included USB-C cable and two USB-C to barrel port adapters provide versatile charging options for a wide array of devices, including the latest Chromebooks and many prior generation models.

3

Universal 65W Power Delivery

output: Not just for Chromebook! Enjoy safe and compatible charging with all USB-C devices including laptops, smartphones, tablets, Bluetooth gadgets and more.

4

Automatic device detection:

Automatic (or smart) device detection ensures your devices stay cool and won't overheat, providing safety while preserving the longevity of your device's battery.

5

Other international safety and quality certifications:

Proudly certified as safe, reliable, energy-efficient and future-proof by the ETL, FCC, DOE, CEC, California Prop 65 and ROHS.

6

1-year limited warranty and lifetime

customer support: With 24/7 support by phone, live chat, or email, Einova stands by its products.

What specifically to look for

1

Savvy ergonomic design: Easy to grip and comfortable to insert/remove from power outlets thanks to an ergonomic design that cradles your fingers.

2

Perfect for travel: The modest and compact size makes the power adapter easy to stash in your backpack, purse, laptop bag, or pocket.

3

Glossy finish: A gleaming finish that complements the high-end industrial design of your devices.

4

Premium 6ft USB-C cable: Completely removable from the charger.

5

Great technology at a great price: Proudly made with GaN technology, a major improvement over the previous generation of semiconductors made from silicon. The 65W Chromebook Power Adapter proves that cutting-edge tech doesn't need to break the bank — it's a power solution perfect for students, digital nomads, and young professionals.

Compatibility

Perfect for Chromebook laptops by manufacturers including Acer, Asus, Dell, HP, Lenovo, and Samsung. For the complete list check out the Chromebook website. Thanks to the **two included tips**, the power adapter is also **backwards compatible** with older Chromebook models that use barrel power ports.

The Einova 65W Chromebook Power Adapter and the included USB-C to USB-C cable are compatible with all **USB-C devices** that require 65W or less of power input, including MacBook Air, MacBook Pro, other USB-C laptops, smartphones, tablets, Bluetooth devices, action cameras, drones, gaming systems and more.

How to use

1

Insert the included USB-C cable into the 65W Chromebook Power Adapter's USB-C port.

2

Plug the power adapter into a power outlet.

3

Insert the other end of the USB-C cable into the charging port of your Chromebook laptop or any other compatible device.

4

If your Chromebook laptop does not charge via USB-C, attach the appropriate Type-C tip to the end of the USB-C cable, then insert it into the Chromebook laptop's charging port.
