# Product overview

The Einova **Ultra Fast Power Bank** – all the power you need in one incredible 63W high-capacity universal backup battery.

Recharge up to **three devices simultaneously** through the three ports: 45W USB-C Power Delivery, USB-A Quick Charge and standard USB-A 2.1A. The generous 20,000mAh battery capacity supports up to 8 smartphone charges, 5 tablet charges or 1.5 laptop charges.<sup>1</sup> The Ultra Fast Power Bank is **universally compatible** with all USB-C and USB devices.

The two high-power fast charge ports (USB-C PD and USB-A Quick Charge) save you valuable time. Top off your MacBook, Microsoft Surface or other USB-C laptop with the fast-charging 45W USB-C Power Delivery output. The smart USB-C output maintains the highest delivery up to 45W, ensuring higher power-requirement devices like laptops receive maximum, steady power.

**Designed and precision engineered in Italy** at Einova's research and design headquarters (Modena, Emilia-Romagna) — a 20,000mAh powerhouse that has enough style and watt power for Silicon Valley, yet is still tough enough for your next trek out to Yosemite. The Ultra Fast Power Bank is wrapped in a soft water-repellent canvas and provides an easy-to-read LCD display. The durable canvas finish is soft with a non-abrasive surface, keeping your electronics and furniture scratch free.

<sup>1</sup> Number of charges dependent on your device's battery capacity. Your charging performance may vary.

# What makes the Ultra Fast Power Bank unique?

1

**63W total output over three ports:** 45W USB-C Power Delivery output to fast charge MacBook Air or other USB-C laptop, 18W USB-A Quick Charge port; and 5W USB-A 2.1A standard port.

2

**Robust 45W Power Delivery port:** Unlike other power banks, power for the 45W port is never degraded, even when you charge multiple devices simultaneously. This smart feature ensures devices like laptops, which require more power, are not limited by power needs of your other devices.

3

**20,000mAh battery:** The generous 20,000mAh battery capacity allows for up to 8 charges for your smartphone, 5 charges for your tablet or 1.5 charges for your laptop.

4

**Universal:** Completely compatible with all USB-C and USB-A powered devices requiring up to 45W of power, such as laptops, smartphones, smart watches, cameras, drones and more.

5

**Multi-device charger:** Need a USB-C port? Regular USB-A? And a USB-A Quick Charge port? The Ultra Fast Power Bank has it all. Give your MacBook Air a boost via the USB-C 45W Power Delivery output. Simultaneously power up two smaller devices via USB-A Quick Charge and USB-A 2.1A.

6

**Ultra-fast:** Not just one, but two high power Fast Charge ports (USB-C PD and USB-A Quick Charge) power up your compatible devices quickly and save your valuable time.

# 7

**Portable:** Slim, lightweight, and perfect for your carry-on. The power bank is 100% compliant with airline regulations for external battery packs.

# 8

**Designed in Italy:** The sleek stylings effortlessly complement your mobile device's high-end industrial design.

# 9

**1-year limited warranty and lifetime customer support:** With 24/7 support by phone, live chat, or email, Einova stands by its products.

# What specifically to look for

---

1

**Soft and sophisticated gray canvas:**

The stylish and non-abrasive canvas finish protects your devices and furniture surfaces. It also provides a welcome textural element that makes the power bank easy to locate by feel in your bag.

2

**Durable and water-repellent:**

Toss the pack around on the beach, on a rock outface. Slide it across gravel or sand. The fabric's weave remains smooth and completely intact.

3

**Soft touch frame:** A special finish to the plastic that's not only pleasurable under the fingertips, it also resists scratches and fingerprints compared to easily marred, cheaper finishes.

4

**Geometric LCD display:** Easy to read at a glance with a striking octagonal shape. The LCD display will show the remaining power balance as a number from 0 - 100. The letters PD appear to indicate when the USB-C Power Delivery port is being used.

5

**ON/OFF button:** Most power banks neglect to add this feature, instead relying on automatic powering on and off. While the Ultra Fast Power Bank has this feature, we also added a specific power on/power off function, allowing you to save energy and battery life even when your device is plugged in.

# 6

## Included accessories for recharging:

Recharge your Ultra Fast Power Bank at maximum speed with the **3ft USB-C to USB-C cable** and a Type-C power adapter of 30W or higher (not included). Don't have a high-wattage power adapter handy? No need to purchase one — cut down on e-waste and recharge the power bank using a 5W or greater USB-A power adapter and the included USB-C female to **USB-C male adapter tip**.

# Compatibility

The Ultra Fast Power Bank is compatible with all **USB-C and USB-A devices** that require 45W or less power or less, including MacBook Air and other light laptops, iPhone 12 / 12 Pro / 12 Pro Max / 12 Mini / 11 / 11 Pro / XS / XS Max / XR / 8 / 8 / AirPods / AirPods Pro (via a Lightning to USB-C / USB-A cable), Samsung Galaxy S20 / S10 / Galaxy S9 / S9 Plus, tablets, Bluetooth speakers, Nintendo Switch, action cameras and many more.

# How to use

## 1

### Multi charger

The stylish and non-abrasive canvas finish protects your devices and furniture surfaces. It also provides a welcome textural element that makes the power bank easy to locate by feel in your bag.

## 2

### 45W Power Delivery charger

The USB-C Power Delivery 45W port fast charges your compatible laptop and other devices.

## 3

### Universal USB charger

The universal charger works with any USB-C or USB device, including phones, tablets, and USB-C laptops.

### Instructions

1. To charge a USB or USB Quick Charge device, turn on the Laptop Power Bank by pressing the power button.

2. Insert one end of a charging cable into your USB or USB Quick Charge device's charging port, and then insert the other end of the cable into the appropriate port in the Laptop Power Bank. Your connected device will now begin charging.

3. To charge a USB-C Power Delivery device, insert one end of the charging cable into the USB-C port of the Laptop Power Bank, and the other end into your device. The Laptop Power Bank will turn on automatically and begin charging, without the need to press the power button.

### Notes

When the connected device is sufficiently charged, the charging process will stop to avoid damaging it.

# Recharging the Ultra Fast Power Bank

## Approximate time to fully recharge the Ultra Fast Power Bank:

Using a 15W power adapter:

**6 hrs**

Using a 29W, 30W power adapter:

**3/3.5 hrs**

## For recharging at maximum speed (recommended):

Connect one end of the USB-C cable to the USB-C port. Connect the other end of the cable to a 30W power adapter (not included), then plug the power adapter into wall power. USB-C PD power adapters of > 30W are also safe to use (for instance, the Einova Sirius 65W Universal Laptop Charger, or the 96W MacBook Pro power adapter).

## For slower recharging:

If you do not have a 30W power adapter, you can safely use a 5W USB-A AC power adapter. Please note that charging will take longer with lower output chargers. Connect one end of the USB-C cable to the USB-C port, then connect the USB-A adapter tip (included) to the other end of the cable. Plug the cable with tip into your 5W power adapter, then plug the power adapter into the wall.

# Specifications

## Power bank:

### Dimensions:

6.75 x 4 x 0.63 in (17,1 x 10,2 x 1,6 cm)

### USB-C input (Power Delivery):

5V 3A (15W) / 14.5V 2A (29W) / 20V 1.5A (30W)

### USB-C output (Power Delivery):

5V 3A (15W) / 9V 3A (27W) / 12V 3A (36W) / 15W 3A (45W) / 20V 2.25A (45W)

### USB-A output 1. (QC):

5V 3A (15W) / 9V 2A (18W) / 12V 1.5A (18W)

### USB-A output 2.:

5V 2.4A (10.5W)

### Total output:

max 63W

### Battery capacity:

20,000mAh

### Finish:

water-repellent canvas, soft touch frame

## Accessories:

USB-C to USB-C cable (3ft)

USB-C to USB-A adapter tip

## Package includes:

Ultra Fast Power Bank, USB-C to USB-C cable (3ft),

USB-C to USB-A adapter tip, user manual.

# Availability

**Authorized retailers** include Einova.com, Amazon, and in stores including Target, Best Buy, Walmart, Home Depot, Office Depot, Staples, and more.

# About Einova by Eggtronic

## Empowering Your Life

**Eggtronic** has been revolutionizing the world of power electronics and wireless power since 2012. Based in Modena, Italy, San Francisco, and Guangzhou, China, Eggtronic's specialized mechatronic and electrical engineers are creating the next generation of micro-sized, energy-efficient power conversion. More than 200 international patents have been granted worldwide to date.

**Einova** is the Eggtronic retail brand that unites Eggtronic innovations with premium Italian product design. Einova wireless chargers, power banks, and power adapters are sold in retailers throughout North America, Europe, and the Middle East and online at [einova.com](http://einova.com). Whether for B2B partnerships or for today's discerning consumers, Eggtronic and Einova help make modern life easier, more efficient and more connected.
